### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

With respect to claims 41-44, 48-56 and 66, the prior art of record fails to teach or fairly suggest a device of the claimed structure of claim 41 including the use of a container wherein the end wall defines a continuous closed surface that is continuous with the side wall and free of openings. One of ordinary skill in the art would not have been motivated to modify the container of the closest prior art of Gordon (US 4,215,198) to have such a continuous wall construction since the device of Gordon requires that the lid or cover be removable during use and/or include a vent port.

With respect to claims 45-47, 57-65 and 67, the prior art of record fails to teach or fairly suggest a product of the claimed combination of elements as recited in claim 45 including a liquid culturing medium in the lower end of the chamber contacting the sensor positioned in the lower end of the chamber. One of ordinary skill in the art would not have been motivated to modify the container of the closest prior art of Gordon (US 4,215,198) to include a culture medium in a lower chamber which contacts a sensor also provided in the lower chamber of the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to WILLIAM H. BEISNER whose telephone number is (571)272-1269. The examiner can normally be reached on Tues. to Fri. and alt. Mon. from 6:15am to 3:45pm.
